SCOPE OF WORK

Asheville Buncombe Community Christian Ministry is soliciting proposals for the services of a Construction Manager for the following contract scope of work:

The Veterans Restoration Quarters (VRQ) is located at 1329 Tunnel Rd., Asheville, NC 28005. It consists of an existing two-story 44,690 SF Residential wing with 122 2-bed units and a single-story and an 11,100 SF Commercial wing with offices, a large dining hall, and commercial kitchen. The facility incurred significant flood damage from Tropical Storm Helene and requires extensive repairs. On an adjoining site, Tropical Storm Helene destroyed approximately 7,000 SF of buildings including the ACTS building that was used as an emergency shelter and classrooms.

This project will be divided into four parts in order to repair, restore and rebuild the existing spaces and improve the resiliency of the overall site. These four parts are as follows:

1. Phase 1 & 2A – Residence and Common Area Renovations: This scope includes renovations to restore the existing building from flood damage caused by Tropical Storm Helene. This building served as the veterans' living quarters, dining area, offices for support staff and kitchen. This renovation will include improvements to the original buildings including an elevator, fire sprinkler system, and improved accessibility.
2. Phase 2B – ACTS Building Reconstruction: This scope includes rebuilding the ACTS building that was leveled by Tropical Storm Helene. The existing building site is within the 100-year flood zone. Therefore, a building with equivalent programming and size will be designed and rebuilt adjacent to the existing VRQ.
3. Phase 3A – Park, Berm, and Stream Restoration: This scope will include restoring the grade by building up the landscape, greenspace, walkways and gazebos that were lost to Tropical Storm Helene.
4. Phase 3B – Flood Resiliency & Revetment: This scope will include building a new revetment along the river side edge of the site and raising the parking behind the residential wing to improve the site's flood resiliency. It also includes creating accessible access to the green space/park along the Swannanoa River.

Chapter 53.

1. Record Retention. The Contractor will retain and will require its subcontractors of all tiers to retain, complete and readily accessible records related in whole or in part to the contract, including, but not limited to, data, documents, reports, statistics, sub-agreements, leases, subcontracts, arrangements, other third party agreements of any type, and supporting materials related to those records.

2. Retention Period. The Contractor agrees to comply with the record retention requirements in accordance with 2 CFR § 200.333. The Contractor shall maintain all books, records, accounts and reports required under this Contract for a period of at not less than three (3) years after the date of termination or expiration of this Contract, except in the event of litigation or settlement of claims arising from the performance of this Contract, in which case records shall be maintained until the disposition of all such litigation, appeals, claims or exceptions related thereto.

3. Access to Records.

a. The Contractor agrees to provide sufficient access to FEMA and its contractors to inspect and audit records and information related to performance of this contract as reasonably may be required.

b. The Contractor agrees to permit, and require its subcontractors to permit, the U.S. Secretary of Transportation, and the Comptroller General of the United States, and, to the extent appropriate, the State, or their authorized representatives, upon their request to inspect all Project work, materials, payrolls, invoices, and other data, and to audit the books, records, and accounts of the Contractor and its subcontractors pertaining to the Project, as required by 49 USC

5325(g) and 2 CFR 200.336.

c. Contractor also agrees, pursuant to 49 CFR 633.17 to provide the FEMA Administrator or authorized representatives including any PMO Contractor access to Contractor's records and construction sites pertaining to a major capital project, defined at 49 USC 5302(a)1, which is receiving federal financial assistance through the programs described at 49 USC 5303, 5307, 5309, 5339, 5310, 5311, 5316, or 5317.

d. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

4. Access to the Sites of Performance. The Contractor agrees to permit FEMA and its contractor's access to the sites of performance under this contract as reasonably may be required.

DHS SEAL, LOGO, AND FLAGS

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives.

NO OBLIGATION BY FEDERAL GOVERNMENT

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

The Contractor agrees to include the above clause in each subcontract financed in whole or in part with Federal assistance provided by FEMA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract.

DOMESTIC PREFERENCE CLAUSE

As appropriate and to the extent consistent with law, the [non-Federal entity][vendor] should, to the greatest extent practicable under a Federal award, provide a preference for

the purchase, acquisition, or use of goods, products, or materials produced in the United States (including, but not limited to iron, aluminum, steel, cement, and other manufactured products).” – For purposes of this clause, (i) “produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States, and (ii) “manufactured products” means items and construction materials composed in whole or in part of non-ferrous materials such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

CONFLICT OF INTEREST

No employee, officer, board member, or agent of ABCCM or the Contractor shall participate in the selection, award, or administration of a contract supported by FEMA funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when the employee, officer, board member, or agent, any member of his or her immediate family, his or her partner, or an organization that employees or is about to employ any of the above, has a financial or other interest in the firm selected for the award.

DISADVANTAGED BUSINESS ENTERPRISES (DBE)

ABCCM promotes policies which assure and encourage the full participation of Disadvantaged Business Enterprises (DBE) in the provision of goods and services. Disadvantaged Business Enterprises, as defined in 2 CFR § 200.321, shall have equal opportunity to compete for and perform subcontracts which the contractor enters into pursuant to this contract. The Contractor agrees to solicit small and minority business and women’s business enterprises whenever they are potential sources. When economically feasible, the Contractor agrees to divide total requirements into smaller tasks or quantities to permit maximum participation by small and minority businesses and women’s business enterprises. Where the requirement permits, the Contractor agrees to establish delivery schedules which encourage participation by small and minority businesses and women’s business enterprises. As appropriate, the Contractor agrees to use the services and assistance of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

This requirement extends to all third-party contractors and their contracts; this clause shall be included in all subcontracts of any tier executed in furtherance of this contract.

Davis-Bacon and Related Acts

This project will require compliance with the Davis-Bacon Act: All contracts or subsequent contracts for construction, alteration, renovation, or repair, including painting and decorating, of a public building or public work, or building or work, financed by federal funds which meets the \$2,000 threshold are required to pay the federal prevailing wage rate for each class of laborer or mechanic employed. Regulations applicable to grant-enabling statutes incorporating the Act can be found in 29 Code of Federal

Regulations (CFR), parts 1, 3, 5 and 7.

These regulations stipulate that grant funds appropriated under the statutes imposing the Davis-Bacon Act requirements shall not be paid to a grantee (the Department also referred to as ABCCM) until contractors or subcontractors performing work under the grant certify that they will comply with the Act's requirements. The Act also applies to any contract or subcontract for similar work on public grants from a federal agency, or where the federal government acts as guarantors of mortgages. The only exception is for the transportation of materials and supplies by persons who are not employed directly at the work site but are employed solely to make deliveries to the work site.

Provider Agencies must ensure that contracts or subcontracts for any Construction / alteration projects contain the wage determination issued and that the appropriate clauses required by the Davis-Bacon regulations (29 CFR, section 5.5) are present. It should be made clear in any announcements of projects or RFP's that federal grant funds are being used and that Davis-Bacon will apply even if the federal government is not a party to the contract or subcontract. The prevailing wage must be paid regardless of any contractual relationship that may exist between a contractor or a subcontractor. Although the Department is not responsible to review sub-contracts for compliance, it has the right to require a prevailing wage.

Sanctions for post-certification violations include suspension of payment, advances, or guarantees of grant funds, and the forced restitution of wages that should have been paid and the removal of offending contractors or subcontractors from active employment lists. Failure to comply can bring penalties that can be severe. The contractor or subcontractor and their sureties are liable for any excess costs from completing the work; the Department may withhold accruals to ensure payment of prevailing wages to the workers; the contract or subcontract may be terminated and/or the contractor or subcontractor may be debarred for a period of three years.

Payrolls and basic records.

Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual

cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved

programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. C. Weekly certified payrolls. The contractor shall submit weekly certified payrolls for each week whether or not any contract work is performed. A copy of all certified payrolls will be submitted to ABCCM or its representative, as the case may be, for compliance purposes. If no work is performed for a specific week, a certified payroll shall be submitted specifying “no work” has been performed. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead, the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/whd/forms/wh347instr.htm> or its successor site.

The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker and shall provide them to ABCCM or its representative, as the case may be, for transmission to the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the applicant, sponsor, or owner).

Apprentices and trainees

i. Apprentices: Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the

ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

ii. Trainees: Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

iii. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

1. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.
2. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as ABCCM may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.
3. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
4. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 will be incorporated into the final contract.
5. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.
6. Certification of eligibility. (i) By agreeing to the terms and agreements the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
7. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
8. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

(a) Definitions. As used in this clause, the terms backhaul; covered foreign country; covered telecommunications equipment or services; interconnection arrangements; roaming; substantial or essential component; and telecommunications equipment or services have the meaning as defined in FEMA Policy, #405-143-1 Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services.

(d) Reporting requirement.
